### **DETAILED ACTION**

1. The amendment filed 2/3/2003 has been entered.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, 5, 12-14, 20-21, 24, 29, 30-31, 33, and 34 rejected under 35 U.S.C. 102(b) as being anticipated by Sekita et al. (US 5,933,369). Sekita discloses a binding apparatus that includes a receiving device (150), a sheet folding device (200), a jogging device (400), a binding device (500), and a discharging device (122, 123, 600).

#### ***Allowable Subject Matter***

4. Claim 14-19 and 32 allowed.
5. Claims 3-4, 6-11, 22-23, and 25-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Response to Arguments***

6. Applicant's arguments filed 2/3/2003 have been fully considered but they are not persuasive.
7. The applicant states that Sekita does not disclose that the folded sheets are conveyed by the sheet folding device, one after another, so as to be stacked into a stack of folded sheets on the jogging table, and the binding device is configured to bind the stack of folded sheets stacked on

*the jogging table*. In response, the examiner notes that Sekita discloses a jogging table (400) where folded sheets are stacked and a binding device (500) that binds the stack of folded sheets stacked on the jogging table. The examiner reminds the applicant that the USPTO considers claims given their broadest reasonable interpretation. The claims do not require that the stapler be attached to the jogging table. Rather the claims merely require that the sheets stacked on the jogging table are bound.

8. The applicant states that Sekita does not disclose that the folded sheets are conveyed with the folded portion thereof being a leading edge of the folded sheet and a leading edge stopping device configured to stop the folded sheet at the leading edge so that the folded sheet is jogged with respect to the leading edge. In response, see Figure 9.

#### *Conclusion*

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
